

Five delivery experience tips to build customer loyalty

1. Delivery Options

Buyers care about:

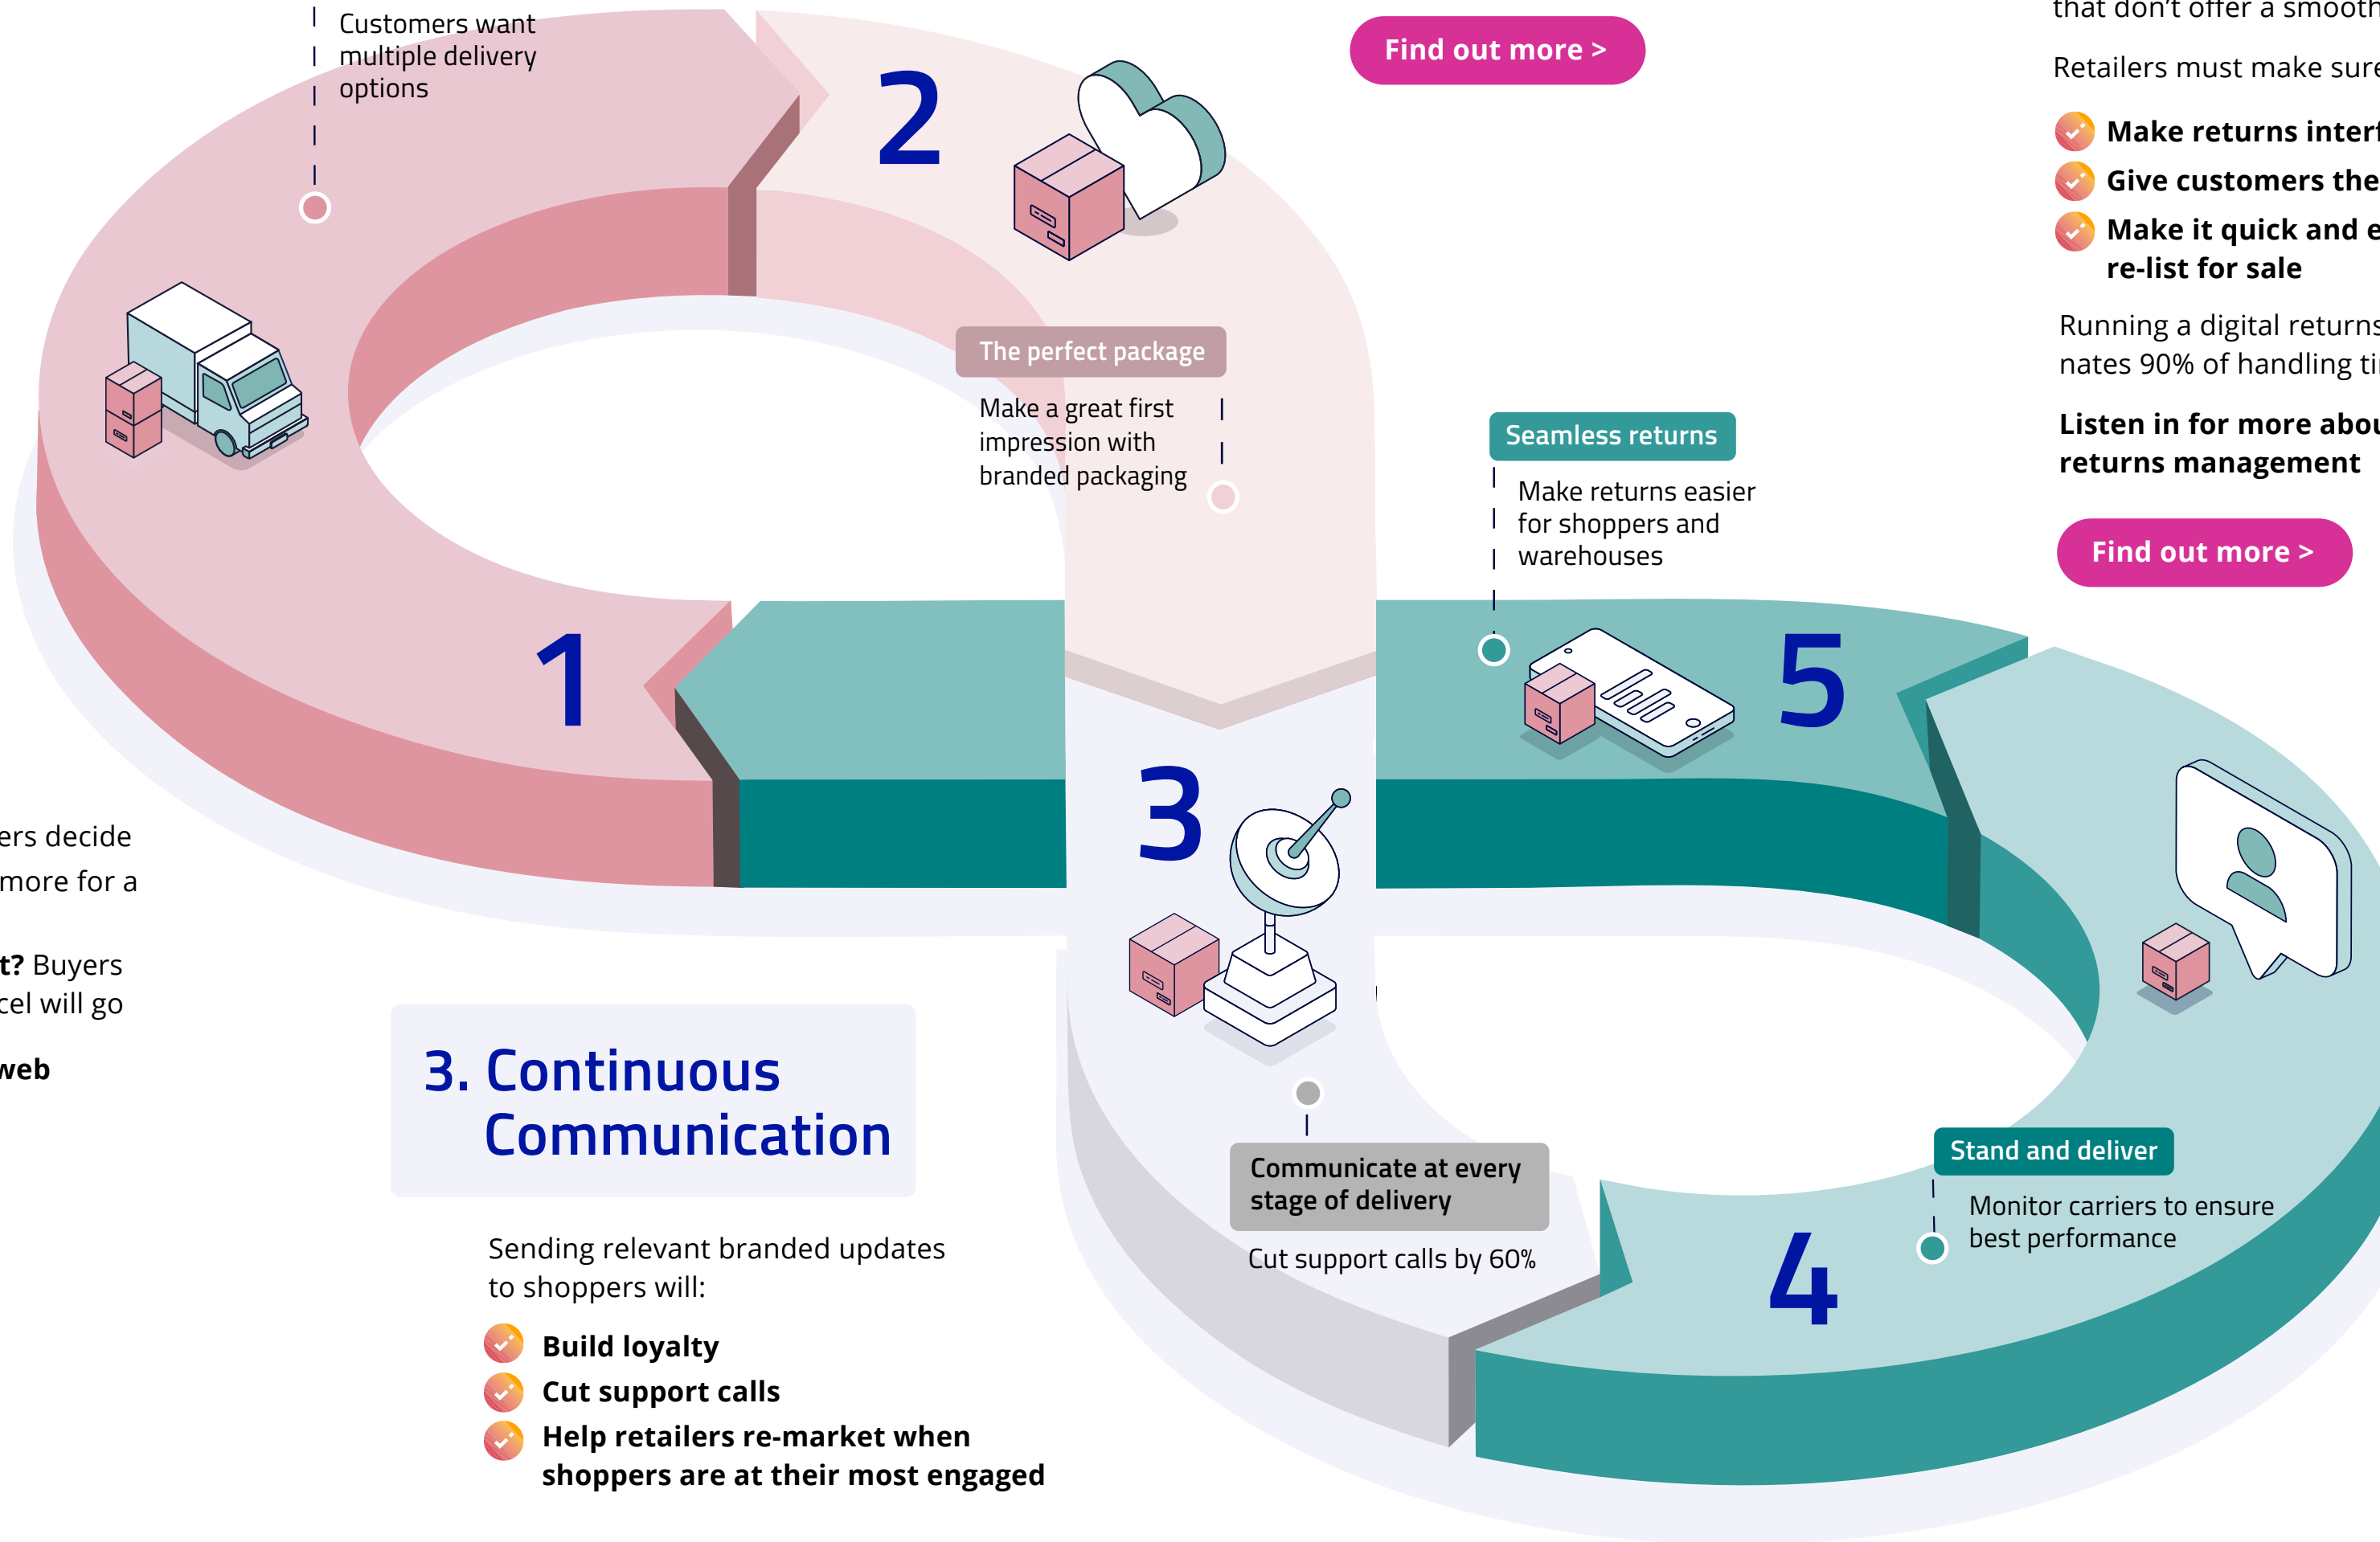

- ✔ **Speed:** offer several options, including next day
- ✔ **Cost or convenience?** let buyers decide
- ✔ **Sustainability:** many will pay more for a lower-emissions delivery
- ✔ **Home, work or click & collect?** Buyers want to choose where the parcel will go

Choices, Choices

Customers want multiple delivery options

2. Branded Packaging

Putting the retailer's identity on the package shapes perceptions of the brand, boost recommendations, and encourage repeat purchase.

The perfect package

Make a great first impression with branded packaging

Use:

- ✔ Bespoke logos
- ✔ Personal slogans
- ✔ Bold color schemes

Take control of the delivery experience with the right delivery management software

Communicate at every stage of delivery

Cut support calls by 60%

Seamless returns

Make returns easier for shoppers and warehouses

5. A User-Friendly Returns Process

Customers quickly abandon brands that don't offer a smooth, fast returns process.

Retailers must make sure they:

- ✔ Make returns interfaces user friendly
- ✔ Give customers the option to exchange items
- ✔ Make it quick and easy for warehouses to re-list for sale

Running a digital returns process eliminates 90% of handling time.
